⇨ TC's execution - Cross- Browser Testing, Mobile Application Testing.
⇨ Test Script Design.
⇨ Test script execution on IE, Firefox and Google Chrome.
⇨ Maintenance of Test script.
⇨ Bug Reporting and Status Tracking.

Project: 2

Title	MetLife
Client	MetLife, US
Application	Communication Hub
Role	Manual(Web-Based and Web-Services), Database and Automation Tester(Selenium-Java)
Tools/Software Used	Data base: Microsoft SQL Server 2008 R2 Tools : Soap UI, appWatch, Selenium WebDriver, GitHub, TestNG, Maven, Jenkins, AutoIT.

Project Overview:

MetLife is a web based software application, used to process and settle claims raised by registered customers. The application (Communication Hub) facilitates the intake of different types of events and identify which ones are translated into communications. This could involve additional data enrichment. Once the identification is complete, the information will be stored in the Communication Hub repository. Depending on the vendor we are integrating with, the Communication Hub distribute the message. Additionally, Communication Hub provides capabilities for tracking the delivery status for each communication as well as storing the final message sent out to the recipient.

Responsibilities:

⇨ Work with Business Analyst in translating business requirements into Functional Requirements Document and to Detailed Design Documents.
⇨ Preparing and uploading the requirements in QC.
⇨ Creating TC's and get it reviewed by business.
⇨ TC's execution - Cross- Browser Testing, Mobile Application Testing.
⇨ Raising and reviewing defects in QC and following up with AD Team to get them resolved in less time.
⇨ Preparing the Weekly Status Report (WSR) and Daily Status Report (DSR) to keep the client updated.
⇨ Updating the SSR tracker for tracking status of different assignments.
⇨ Preparing the Weekly Status Report (WSR) and Daily Status Report (DSR) to keep the client updated.
⇨ Preparing Master Test Document (MTD), Test Closure Report and Test Sign-off Report as Deliverables.
⇨ Test Script Design.
⇨ Test script execution on IE, Firefox and Google Chrome.
⇨ Maintenance of Test script.

Project: 3

Title	MetLife
Client	MetLife, US
Application	Global Employee Benefits (GEB)
Domain	Insurance
Role	Manual Tester and Database Tester
Tools/Software Used	QC 11.5, Compass.
